Accident Insurance can pay you money for covered accidental injuries and their treatment.

How does it work?
Accident Insurance can pay a set benefit amount based on the type of injury you have and the type of treatment you need. It covers accidents that occur on and off the job. And it includes a range of incidents, from common injuries to more serious events.

Why is this coverage so valuable?
• It can help you with out-of-pocket costs that your medical plan doesn’t cover, like co-pays and deductibles.
• You’re guaranteed base coverage, without answering health questions.
• The cost is conveniently deducted from your paycheck.

What’s included?

Wellness Benefit
Every year, each family member who has Accident coverage can also receive $50 for getting a health screening test, such as:
• Blood tests
• Chest X-rays
• Stress tests
• Colonoscopies
• Mammograms
